Ashville Community,

Please be advised, the public alert sirens located within the City are not functional. The technology is outdated and the sirens are not a reliable way to receive public notifications. As the Emergency Management Agency has advised, both weather radios and free cell phone applications are readily available and are significantly more reliable mechanisms for alerting the public of weather-related events. Please do not rely on the public alert sirens as they are **not** functional. Please obtain a weather radio or cell phone application to receive weather-related alerts. If you have any questions or need any assistance, please contact City Hall or the St. Clair County EMA.

Sincerely,

A handwritten signature in black ink, appearing to read "Derrick Mostella".

Derrick Mostella, Mayor
